

**Assignment -2**  
Python-Flask-Db2

AssignmentDate	27 October2022
StudentName	R.Nithin karthick
StudentRollNumber	810719104016
MaximumMarks	2Marks

**Question-1:**

- 1.Create Usertablewith userwithemail,Username,rollnumber,password.
- 2.PerformUPDATE,DELETEQuerieswithusertable.
- 3.Connectpythoncodetodb2
- 4 . Create a flask app with registration page. login page and welcome page. By default load the registration page once the user enters all the fields store the data in database and navigate to login pageauthenticateuserusernameandpassword.Iftheuserisvalidshowthewelcomepage.

The screenshot shows a web browser window with a single tab titled 'Signup'. The address bar displays '127.0.0.1:5000'. The main content area features a white rounded rectangle centered on a light gray background. Inside this rectangle, the text 'SignUp' is displayed in a large, bold, orange font. Below this, there are four input fields, each preceded by a label: 'Username :', 'Roll Number :', 'Email :', and 'Password :'. Each label is in a small, gray font. The input fields are white with a light gray border. Below the input fields is a solid orange button with the text 'Signin' in white. At the bottom of the white rectangle, there is a link that reads 'Already have an Account ? Signin', where 'Signin' is in orange and underlined.
